Name: _____ *Certification #:* _____

Field History Sheet — NOP §205.201; §205.202

- ***Provide information for <u>ALL fields you manage</u> (organic, conventional, etc.) and all in-ground production under cover (e.g. green/hoop houses, high tunnels).***
- **<u>For renewing operations, only field activity since the last inspection and your plans for the current year are required for fields that are currently certified.</u>**
- ***Use one row for each field.***
- ***Include all crops, cover crops, pasture, woods, etc.***
- ***List all inputs (i.e. seeds, seedlings, fertilizers, compost, manure, lime/gypsum, mulches, pest control).***
- **Include your plans for this year in the 2017 column, even if you have not yet planted or used any inputs. Your complete field activity records will be reviewed at inspection.**
- **Make sure the acreage and field identification information listed on this sheet matches the information in the previous section and on your farm map(s).**
- **Include the last date a prohibited substance was applied to all transitional fields.**
- **Make copies of this sheet or request additional field history forms if more space is needed. An alternate document that includes all the information requested here may also be accepted.**
- **In the "Field Status" column, list "O" for Organic (currently certified organic by OEFFA), "N" for New (requested for certification by OEFFA for the first time), "T" for Transitional (will be requested for certification in the next 3 years), or "C" for Conventional (not requested or planned for certification).**
