Non-Organic Ingredient Form

To be filled out by the manufacturer of the non-organic ingredient(s)

When used in a product making an “Organic” or “Made with Organic” claim, non-organic ingredients must meet the NOP requirements regarding the exclusion of genetically modified organisms (GMO’s), irradiation, and sewage sludge (where applicable).

Ingredient/ Processing Aid	Brand Name	Source

The ingredient(s) and/or processing aid(s) named above:

- **is/are not genetically modified, and genetically modified organisms were not used in the production of this/these material(s).**
- **has/have not been irradiated.**
- **has/have not been produced with sewage sludge.**
- **has/have not been processed using a volatile synthetic solvent or other synthetic processing aid not allowed under §205.605 in or on this/these material(s).** *(Nonorganic ingredients in products labeled “made with organic (specified ingredients or food group(s))” are not subject to this requirement.)*

I affirm that all information provided is true and correct to the best of my knowledge.
