If animals are not traveling directly from seller's operation to buyer's operation, additional transport records are required. Submit those with this form.

**Last-third-of-gestation organic animals are not eligible for organic slaughter if they have been treated with conventional de-wormers or other synthetic materials allowed in organic dairy/fiber production but prohibited for meat.*

****IMPORTANT CHANGE: (As of 04/05/2023) 205.236 requires purchases of animals ONLY under continuous organic management from the last third of gestation. No transitioned dairy animal can be used as a replacement animal unless a variance has been granted directly by NOP. Contact your certifier with questions.**

I affirm that all information on this document is true and accurate, and that records supporting this document can be provided upon request. **I affirm that animals were transported according to my OSP transport plan or that additional transport records are included with this form.**

Signature of Seller: _____ Date: _____
