Seeds, Seedlings, and Planting Stock — NOP §205.204

A. SEEDS

The NOP requires the use of certified organic seeds unless not commercially available. See OEFFA's Seed & Planting Stock Sourcing policy for more information about searching for organic seeds. Synthetic seed treatments are prohibited unless included on the National List. Genetically engineered/modified (GMO) seeds are prohibited in organic production. If using non-organic seed when organic is not commercially available, you must also obtain verification that your seed is untreated and non-GMO.

List all seeds used or planned for use in the current year. Check the appropriate boxes below. Attach additional sheets if more space is needed. Produce growers may submit seed order sheets or invoices showing complete information instead of completing this table. *Have all tags/packets/labels, receipts, and supporting documents available for the inspector.*

CROP, VARIETY, & BRAND	ORGANIC	NON-ORGANIC (UNTREATED & NON-GMO)	NAME/BRAND OF INOCULANT AND/OR COATING
